

VULVARINE

BIOGRAPHY

VULVARINE - ROCK'N'ROLL SISTERHOOD SINCE 2019

Vulvarock is a unique term to describe the sound of the Vienna-based band: raw punk meets heavy metal and high energy rock 'n' roll. The songs are energetic, dramatic, but most of all: empowering. They tell of parties, intoxication, and harassment. Of lovers, myths, and magic; of power and powerlessness. Vulvarine's music uncovers the blacks, whites, and greys of life, while never taking it all too seriously.

Since the release of their debut album "Unleashed" (2020), the band has been touring national and international club and festival stages all over Europe and supported bands like Thundermother (SWE), The Baboon Show (SWE), Exciter (CAN) and The Bar Stool Preachers (UK). The new EP "Witches Brew" releases on October 20, 2023.
